# Tools and Techniques for Data Science Lecture 1

Dr. Faisal Kamiran

**Data Scientist and Professor** 

## Dr. Faisal Kamiran

- PhD, Eindhoven University of Technology, The Netherlands (TU/e) Rank
   125 in the world (QS World University rankings 2021)
- Director, Data Science Lab (DSL) ITU.
- Heading MS Data Science Program.

# **Quality Research Capability**

- More than 45 Research Publications include:
  - Four ICDM Papers (A\* rank)
  - Papers in ECML/PKDD, EMNLP, CIKM, PAKDD, KAIS, Information Systems, etc.

## **Awards**

Received a prestigious World Bank (WB) Research innovation award worth \$100,000 funding for Gender Based Violence work (with Washington DC think tank) from WB and SVRI.

#### Data Science Lab Director Awarded World Bank Grant

Information Technology University (ITU) faculty member and Data Science Lab Director Dr Faisal Kamiran has won a World Bank innovation award for...

TECHNOLOGYREVIEW.PK

# **Our Projects**

**World Bank Research Innovation Award** 

- World Bank (WB) Research innovation award in Spring 2017.
- WB and SVRI gave \$100,000 fundinding for our Gender Based Violence work (with Washington DC think tank.

## **Funded Projects**

#### CIPL (Crime Investigation and Prevention Lab)

- 80 Million PKR Funding.
- Working on the Punjab Police data for Smart Police Surveillance project.
- Analysed 90M CDRs in **Zainab Murder Case** to assist Kasur Police

#### SMS Financial Fraud Detection and Prevention

- KARANDAAZ (Melindaa Gates Foundation) funded project .
- Using machine learning and AI techniques , identifying content based fraudulent schemes to help secure DFS (Digital Financial Services) in Pakistan

#### Disease Surveillance System

- Using AI models, a disease surveillance platform was built to prepare health resources, drugs and bed availability.
- 3.6 Million PKR funding.

## Semester Schedule

Week 1: Introduction to Data Science

Week 2: Data Understanding and Acquiring

Week 3: Data Pre-processing and Cleaning

**Week 4: Exploratory Data Analysis** 

**Week 5-6: Machine Learning: Decision Trees** 

**Week 7-8: Performance Evaluation and Ensembles** 

## Semester Schedule

Week 9: Nearest Neighbour and Bayes Classifier

Week 10: Regression

Week 11-12: Association Rule Mining

Week 13-14: Clustering

Week 15-16: Advance Topics and Project Reservation

#### **Text Book and Reference Material**

Vijay Kotu and Bala Deshpande
"Data Science: Concepts and Practice"

2<sup>nd</sup> Edition

#### **Reference Material:**

- VanderPlas, Jake. "Python data science handbook: essential tools for working with data". O'Reilly Media, Inc., 2016.
- Boschetti, Alberto, and Luca Massaron. "Python data science essentials"

# **Course Grading**

Quizzes	13%
Assignments	12%
Midterm	25%
Final	35%
Group Project	15%
Total	100%

# Course Project

- This will be a group project, where each team takes on a particular Data Science related problem.

 Each team will start from scratch, including finding/constructing the relevant data sets.

 Every group will be free to work on any problem they want but it needs to be approved by Dr. Faisal Kamiran and TA's.

# Google Classroom

The homework assignments, and projects will be submitted by Google Classroom, so sign up with your ITU official accounts.

Google Classroom URL: classroom.google.com

Press the "+" button on top right side and give the access code:

Google Classroom Access Code: jv7u7vk

## What is today's agenda?

Today we are going to learn following things:

- What is Data Science?

- Why learn Data Science?

- How do we learn Data Science?

Who is helping you learn Data Science?

## **20th Century Innovation**

In the 20th century Engineering and Computer Science played key role in many fields. Some of them are listed below:

- Cars
- Airplanes
- Power grid
- Television
- Air conditioning and central heating
- Nuclear power
- Digital computers
- The internet

#### But how about these 20th Century questions?

Does fertilizer increase crop yields?

- Does Streptomycin cure Tuberculosis?
- Does smoking cause lung-cancer?

#### What is the difference?

- Deterministic versus random

- Deductive versus empirical
- Solutions deduced mostly from theory versus solutions deduced mostly from **data**

#### **Data: The Difference**

- Does fertilizer increase crop yields?
  - Answer: Collect and analyze agricultural experimental data
- Does Streptomycin cure Tuberculosis?
  - Anwer: Collect and analyze randomized trials data
- Does smoking cause lung-cancer?
  - Answer: Collect and analyze observational studies data

Analyzing these was the job of: boring old statisticians

#### **Moving Towards 21st Century**

Data is Everywhere.

#### 21st Century

#### - 2021 Era of Data Science

"I keep saying the sexy job in the next ten years will be statisticians. People think I'm joking, but who would've guessed that computer engineers would've been the sexy job of the 1990s?"

Hal Varian, Chief Economist at Google On January 2009

#### 21st Century

- 2021 Era of Data Science
   "Information is the oil of the 21st Century, and Analytics is the combustion engine."
- Peter Sondergaard
   Senior Vice President, Gartner Research
   October 2011

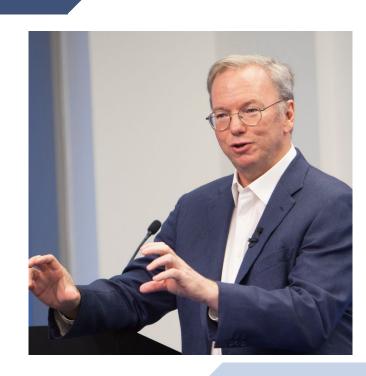

#### **21st Century**

#### - 2021 Era of Data Science

"There were 5 exabytes of information created between the dawn of civilization through 2003, but that much information is now created every 2 days."

- Eric Schmidt

Former CEO, Google (2001-2011)

#### **Big Data by Andrew McAfee**

## "The world is one Big Data Problem."

Andrew McAfee
 Co-director at the MIT Initiative

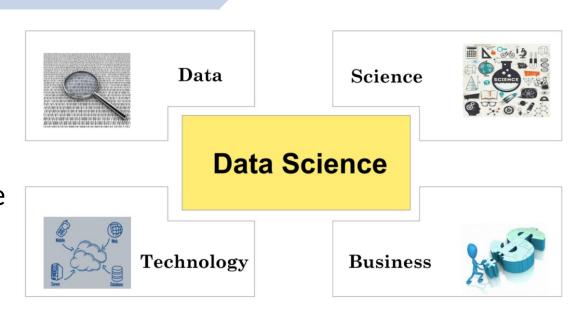

#### **Data Science Applications**

- Spell Checkers
- Speech Recognition
- Language Translators
- Digitizing Books
- Social Sciences
- Medical Diagnostics
- Personalized Medicine
- Basic Biology
- Much More

#### What is Data Science?

"An interdisciplinary field that employs sophisticated tools and techniques to extract knowledge and actionable insights from structured or unstructured data in order to optimize business objectives."

#### What is Data Science?

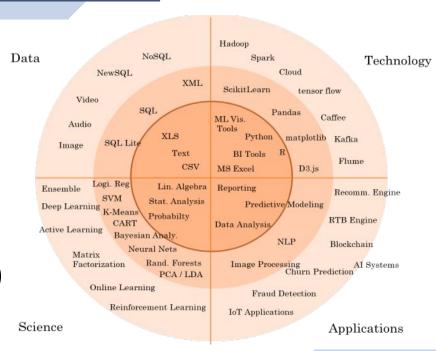

Like any emerging field, it is well defined and incorporates elements of:

- Exploratory Data Analysis and Visualization
- Machine Learning and Statistics

- High-Performance Computing technologies for dealing with scale.

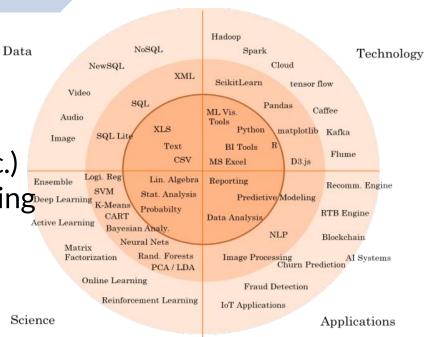

#### **Ingredients of Data Science?**

- Data
  - Structured/UnStructured
  - Audio/Video/Image
  - Document/Graphs
- Technology
  - Python, Java
  - Libraries (Pandas, Numpy etc.)
  - Excel, BI Tools

#### Ingredients of Data Science?

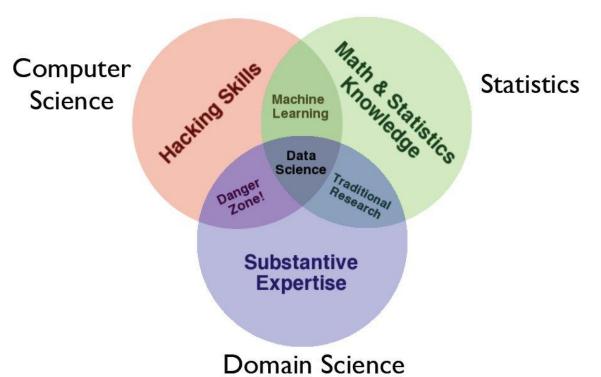

- Science
  - Linear Algebra/ Statistics
  - Probability
  - Algorithms (K-Means, KNN etc.)
  - Machine Learning/Deep Learning
- Applications
  - Reporting
  - Predictive Modeling
  - Computer Vision/ NLP
  - Blockchain, Recommendation Systems etc.

#### Industries benefiting from Data Science?

#### **Skill Sets for Data Science**

#### **Appreciating Data**

- Computer Scientists do not naturally appreciate data: it's just stuff to run through a program.
- The usual way to test algorithm performance is to run the implementation on "random data".

 But interesting data sets are a scarce resource, which requires hard work and imagination to obtain.

#### **Develop Curiosity**

- The good data scientist develops a curiosity about the domain/application they are working in.
- They talk shop with the people whose data they are working on.
- They read different news, articles and updates to get a broader perspective on the world.

They keep on searching for open research areas in their field.

#### **Asking Good Questions**

Software developers are not encouraged to ask questions, but data scientists are:

- What exciting things might you be able to learn from a given data set?

- What things do you/your people really want to know?

- What data sets might get you there?

#### **Let's Practice Asking Good Questions**

Who, What, Where, When, and Why on the following datasets:

- Baseball-reference.com

International Movie Database (IMBb)

- Google ngrams
- NYC taxi cab records

#### **Baseball-Reference.com Data**

#### **Babe Ruth**

f Like 1,213 people like this.

S+1 +25 Recommend this

George Herman Ruth (Babe, The Bambino or The Sultan Of Swat)

Positions: Outfielder and Pitcher Bats: Left. Throws: Left Height: 6' 2". Weight: 215 lb.

Born: February 6, 1895 in Baltimore, MD High School: St. Mary's HS (Baltimore, MD) (All Transactions) Debut: July 11, 1914 (Age 19.155) Rookie Status: Exceeded rookie limits during 1915 season [\*]

Final Game: May 30, 1935 (Age 40.113)

Inducted into the Hall of Fame by BBWAA as Player in 1936 (215/226 ballots). Induction ceremony in Coopers View Babe Ruth Page at the Baseball Hall of Fame (plaque, photos, videos).

Died: August 16, 1948 in New York, NY (Aged 53.192) Buried: Gate of Heaven Cemetery, Hawthorne, NY View Player Bio from the SABR BioProject

Teams (by GP): Yankees/RedSox/Braves 1914-1935

About biographical information

#### **Transactions**

July 9, 1914: Purchased with Ernie Shore and Ben Egan by the Boston Red Sox from Baltimore (International) for more than \$25000. more than \$25000 December 26, 1919: Purchased by the New York Yankees from the Boston Red Sox for \$100,000. February 26, 1935: Released by the New York Yankees.

February 26, 1935: Signed as a Free Agent with the Boston Braves.

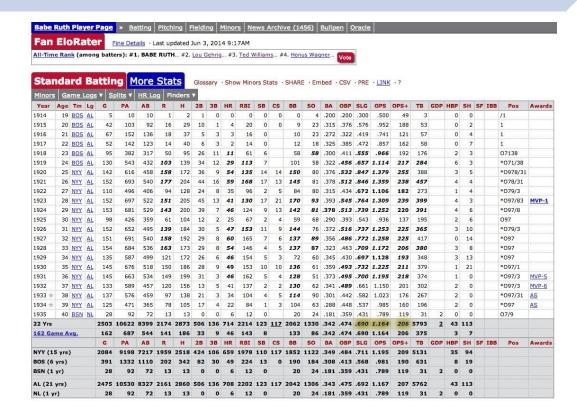

The transaction information used here was obtained free of charge from and is copyrighted by RetroSheet. We attempt to update transactions throughout the season.

#### **Statistical Record of Play**

Summary statistics of each years batting, pitching, and fielding record, with teams and awards.

#### **Baseball Questions**

- How to best measure individual player's skill, value or performance?

- What is the trajectory of player's performances as they mature and age?
- To what extent does batting performance correlate with the position played?

## **Demographic Questions**

Do left-handed people have shorter lifespans than right-handers?

- How often do people return to where they were born?

- Do player salaries reflect past, present, or future performance?
- Are heights and weights increasing in the population?

## **IMDB Movie Data**

### **IMDB Actor Data**

#### James Stewart (I) (1908-1997)

Top 5000

Actor | Soundtrack | Director

James Maitland Stewart was born on 20 May 1908 in Indiana, Pennsylvania, where his father owned a hardware store. He was educated at a local prep school, Mercersburg Academy, where he was a keen athlete (football and track), musician (singing and accordion playing), and sometime actor. In 1929 he won a place at Princeton, where he studied ... See full bio »

Born: James Maitland Stewart

May 20, 1908 in Indiana, Pennsylvania, USA

Died: July 2, 1997 (age 89) in Los Angeles, California, USA

230 photos | 42 videos | 1180 news articles »

Won 1 Oscar. Another 25 wins & 19 nominations. See more awards »

#### Cast

Cast overview, first billed only: James Stewart George Bailey Donna Reed Mary Hatch Lionel Barrymore Mr. Potter Thomas Mitchell Uncle Billy Henry Travers Clarence

Edit

Gloria Grahame Violet

## **Movie Questions**

- Can we predict how well people will like a movie? What about its gross?
- What does the social network of actors look like? (Six degrees of Kevin Bacon)

What is the age distribution of actors and actresses in film?

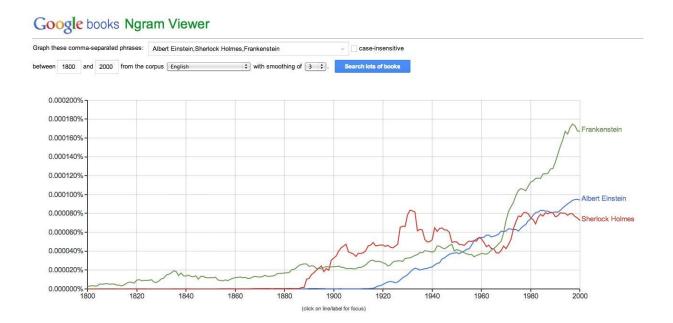

Do stars live longer or shorter lives than the bit players or public?

## **Google Ngrams**

- Presents an annual time series of the frequency of every "popular" word/phrase with 1 to 5 words occurs in scanned books.

- 'Popular' means appears >40 times in total.
- Google has scanned about 15% of all books ever published, making this resource quite comprehensive.

## **Google Ngrams Viewer**

## **Ngram Questions**

- How has the amount of cursing changed over time?

- What is the lifespan of fame and technologies? Is it increasing/decreasing?

- How often do new words emerge? Do they stay in common usage?

- What words are associated with other words, i.e. can you build a language model?

## Taxi Cab Data

- Gives driver/owner, pickup/dropoff location, and fare data for every taxi trip taken.
- Data obtained from NYC via Freedom of Information Act Request (FOA)

## **Taxi Cab Questions**

- How much do drivers make each night?

- How far do they travel?

- How much slower is traffic during rush hour?

- Where are people traveling to/from at different times of the day?

Do faster drivers get tipped better?

# How do we do Data Science?

## **Skills We Will Learn**

#### - Science

 determining what questions can be answered with data and what are the best datasets for answering them

#### - Computer programming

- using computers to analyze data

#### Data wrangling

- getting data into analyzable form on our computers

#### - Statistics

- separating signal from noise

#### - Machine learning

- making predictions from data

#### - Communication

sharing findings through visualization, stories and interpretable summaries

## **Specific Concepts and Principles**

#### - Science

- Gain experience asking questions.

#### Computer programming

Python, GitHub, cloud computing.

#### - Data wrangling

Python libraries for reading data tables and scraping web pages.

#### - Statistics

 Exploratory data analysis, inference, estimation, conditional probabilities, regression, modeling, Bayesian statistics, and more.

#### Machine learning

- Support vector machines, k-nearest neighbors, regression trees, random forests, boosting, decision trees.

#### - Communication

Python graphing packages and in-class practice

## **Data Science - Key Roles**

- Chief Data Officer
- Data Architect
- Data Engineer
- Data Analyst
- Data Scientist

## Questions?
